01

Refrigeration Cooler

7' x 12' walk-in cooler with 10' x 2' Shelves on both sides, 3 levels. 1 Baking Rack for Pies or Cakes, 12 removable baking trays.

02

Upright Freezer

A suitable 21cu Upright Freezer located in an 8' x 8' front storage area at the front of the trailer

03

Quiet Operation

The trailer is not only elegant, but it is virtually silent with no loud generators or refrigeration units.

04

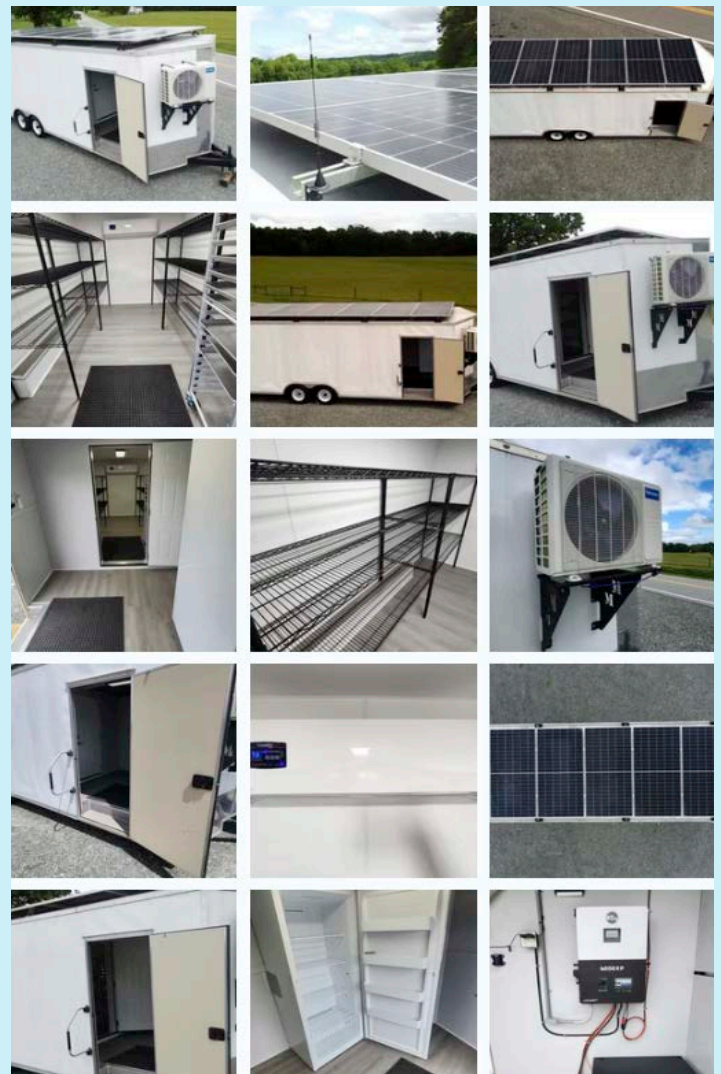

Remote Support Monitoring

The Solar power and cooling temperatures are monitored remotely to ensure your food stays at the temperature you set.

05

Renewable Energy

The Renewable Cooler trailer can run without additional power when in direct sunlight indefinitely. If the rain visits your event, it will run for 48 hours on battery. Additionally, there is a plug-in feature that runs on a standard 15A 120V circuit should the need arise.

Renewable Coolers

is operated by:
Moulder Solutions, LLC.
